

Dental Practice “Edelweiss”

雪绒花之语——牙科诊所

| klm architekten GbR |

诊所的中心位置有一个高高的玻璃展示柜，内部的绿色竹竿十分引人注目
In the center of this lounge a high glass display with bamboo-sticks catches the eye of the patients

白色是诊所休息室的典型色彩
Snow-white, the characteristic color of the dental lounge

室内的设备被嵌在了墙体上，四周镶上了橡木框
The furniture is integrated into the walls and framed by oak-wood

和谐的灰色与米黄色更加强了室内的舒适感
Harmonic grey and beige colors underline the comfortable ambiance

这一牙科诊所坐落在柏林的市中心，以雪白和自然的暖色系设计为突出特征。klm建筑事务所打破常规的设计方式，将陶瓷材料、铝材、玻璃、橡木与雪白的立方体设施结合起来，形成独具风格的组合体。klm建筑事务所在柏林和莱比锡均设有办公室，以酒店和当代室内设计著称。本项目的的设计旨在将现代牙科学与顾客的期望相结合，营造一种永久而优雅的氛围。诊所的柜台和部分墙体是用白色的矿物材料制成的，表面没有任何缝隙，且达到了非常高的卫生标准。柜台被奢华的皮革所覆盖，使得人们更容易联想到酒店的服务台而不是诊所的前台。前台接待员将以咖啡来招待来

访病人并陪伴他们前往候诊室。在诊所的中心位置有一个高高的玻璃展示柜，内部展示的绿色竹竿十分引人注目。和谐的灰色与米黄色更加强了室内的舒适感。从诊所内的四个房间中都可以欣赏到柏林动人的景色。室内的衣柜等设施被嵌在了墙体上，四周被镶上了橡木框。设计师与柏林Semperlux照明公司合作开发了一种特殊的照明系统——摄影灯。摄影灯中间是一块监视器板，四周被灯所环绕，整个系统可以营造一种平静而放松的氛围。通过这样一种室内设计，那些有理想、有抱负的牙科医师和具有敏锐洞察力的建筑设计师创造出了人类保健的新远景。

前台
The counter

白色矿物材料的墙体
The wall is made of white mineral material

Snow-white and warm nature colors characterize the dental practice "Edelweiss" in the city-center of Berlin. The unconventional design of klm architekten is a composition of ceramic material, aluminium, glass and oak-wood combined with snow-white furniture in cubic shapes. klm architekten, an office based in Berlin and Leipzig, are known by their hotel-design and contemporary interior. Main goal in the design of the dental practice "Edelweiss" was to combine modern dentistry with the expectations of the demanding clients and create a timeless and elegant atmosphere. The counter and several walls were made of white mineral material with a jointless surface and highest hygienic requirements. Covered with luxurious leather, the counter reminds more of a hotel-reception, than a dentists' practice. The receptionist greets the patients

with a coffee and accompanies them to the waiting room. In the center of this lounge a high glass display with bamboo-sticks catches the eye of the patients. Harmonic grey and beige colors underline the comfortable ambiance. The four dentist's rooms have an imposing view over Berlin. The furniture is integrated into the walls and framed by oak-wood. The architects developed together with Berlin-based Semperlux company a special illumination: "Video-Lights" provides a ring of lights with a monitor panel in the center to create a calm and relaxing atmosphere. Ambitious dentists and sensitive architects created with this interior-design a fresh vision of the future of healthcare.
